Great for all outdoor activities - sledging, skiing, skating and 'At the match' - where your normal camera may be at risk.

ONLY **£3.99**

Your colour prints expertly processed by

Klick
PHOTOPOINT

Your complete film and photo service

Some useful hints to help you to get good photos...

1 Make the best use of the sun or available light. Unless you want special effects, always stand with your back to the sun or other light source.

2 If using flash indoors, keep at least six feet away from the subject to avoid pale, washed-out prints. Remember also that flash won't work properly on subjects more than about 10 feet away.

3 Keep fingers, straps & camera cases right away from the lens. They don't always show in the viewfinder but they can still cover part of the lens and spoil the shot.

4 Hold the camera very steady and gently squeeze the shutter release. More blurred or unsharp pictures are caused by camera shake than by any other reason.

5 Take care not to look through the viewfinder at an angle, as this is the main cause of cutting off heads or leaving out part of a group, etc.

6 Load films into your camera out of direct sunlight, and always wind on fully to the first frame. Don't leave film in the camera for too long, and have it processed as soon as you've taken the last shot.

7 Keep the camera lens clean with a soft cloth. Fingermarked lenses will produce soft, fuzzy looking pictures.

8 Avoid exposing your normal camera to unnecessary risks such as sand, sea or action sports where knocks and bumps might be expected. In these situations consider a Klick TakeAway single use camera.

...and everything you want from your photo service.

***Top quality Colour Film Processing...**
6" x 4" SuperPrints, 7" x 5" Giant Prints*, and Regal 8½" x 6"* Prints all from 35mm films. SuperPrints from 110 and Disc films at 5" x 4" and 126 at 4" x 4", 7" x 5" Giant Prints* also available from 110 films.

Your negatives...

Keep negatives clean and safe in this protective pocket, and handle only by the edges. When ordering reprints or enlargements, please supply complete strips of negatives; don't cut out single negs as they are very difficult to handle in our enlargers.

Enlargements and Reprints direct from Klick...

Family and friends will be delighted to have enlargements or reprints of your favourite photos, particularly our deluxe "Presentation PLUS" enlargements, with hand finished prints supplied individually in our high quality mounts and packaged in distinctive presentation folders. So don't hesitate to use any Klick PhotoPoint shop around the country to order top quality copies from this film or from any previous films.
Just give us the appropriate neg strip(s) and indicate the quantity, size and type of each print which you require, using the reference numbers on the edge of the strip to show us which negs to use. We'll then make beautiful colour prints and enlargements for you, and return all your negs intact.
